HECKERS' PARINA, prepared expressly tor families, a delicate and appropriate food for all seasons, and one of the most economical, nutritious, and wholesome preparations ever brought to the table, eminently combining the gratification of the polste with ample and healthful sustenance of the body.

Strictly speaking, Heckers' Farina is neither stringent nor laxative, but restorative, strengening the digestive and absorbent system. In disordered bowels, diarrhae, dysentery, and even in cases of cholers, when food is deemed admissible by the physicians, Heckers' Farina cannot fail to be salutary; and wherever known is extensively used in hospitals and private practice. The preservation of health or the prevention of sickness is at least as important as the curing of disease. People in health should therefore use Heckers' Farina freely, as common food, to preserve the inestimable blessing.
